

ESCAPE SLIDE & EMERGENCY OXYGEN PMA CYLINDERS

Leading the industry through knowledge and understanding

AmSafe Bridport™ escape slide and emergency oxygen PMA cylinders lead the industry in solving the complex issue of cylinder replacement. Our PMA Cylinders are manufactured by the same manufacturer that produce these cylinders for the OEMs, in the same facility, under the same specification and even on the same production line. The only difference is the label and the lower AmSafe Bridport price.

With on-site storage capabilities and an extensive distributor network ample inventory is always available to ensure in-stock availability. With OEM lead times often exceeding 12 weeks, you can trust AmSafe Bridport to meet any challenging delivery requirement.

‘On the shelf’ availability of cylinders is critical. AmSafe Bridport realizes the life limit of an escape slide or emergency oxygen cylinder can catch customers by surprise. Utilizing our massive inventory pool and our established network of distributors we can provide an immediate replacement, at a price significantly below the OEM – guaranteed.

LEADING PROVIDER OF SAFETY AND SECUREMENT PRODUCTS

Carbon Cylinders

Aluminum cylinders are reinforced with carbon filament windings. All carbon cylinders are manufactured and tested per the DOT SP-10945 and DOT SP-10915 specifications.

- ⊗ Boeing 707, 727, 737, 747, 757, 767, 777.
- ⊗ Airbus A300, A310, A318, A319, A320, A321, A330, A340.
- ⊗ DC-9, 717, MD-80, 88 and 90, & MD-11.

Kevlar Cylinders

All Kevlar cylinders are manufactured and proof tested per the DOT E-8162, DOT SP-8718 and DOT SP-10945 specifications.

- ⊗ Boeing 737, 747, 767, 777.
- ⊗ Airbus A300, A330, A340.

Oxygen Cylinders

Aluminum cylinders are reinforced with Kevlar filament windings. They are manufactured and tested per the DOT SP-8162 specifications and replace AVOX/Scott OEM cylinders.

- ⊗ Boeing 777, 737, 747, 707, 727, 757, 767.
- ⊗ ATR 42, ATR72.
- ⊗ Saab 340, 2000.
- ⊗ Embraer 120, EMB145, ERJ170, EMB120.
- ⊗ Douglas MD-11, 717, MD-88, MD-90, DC-10, DC-9.
- ⊗ Cessna 560, 208.
- ⊗ Airbus A320, A310, A319, A321, A318, A330, A340, A300.
- ⊗ Learjet 45.
- ⊗ Bombardier CL-600, DCH-8, ATR42 and ATR72.
- ⊗ Mooney M20 Series.
- ⊗ Pilatus PC-12.
- ⊗ Dassault Aviation Aircraft Models.
- ⊗ Gulfstream 1125 Astra.
- ⊗ Falcon 50.
- ⊗ King Air.
- ⊗ G II, III, IV.

Steel Cylinders

All steel cylinders are manufactured and tested per the DOT 3HT and DOT 3HT 3.3 specifications.

- ⊗ Boeing 707, 727.
- ⊗ Airbus A300, A310, A320, A321.
- ⊗ Boeing 737 Series and 747, 757, 767, 777.
- ⊗ Douglas DC-8, 9, 10 and MD-88.
