

↘ MILITARY PALLET NETS

The Benchmark for Cargo Restraint Systems

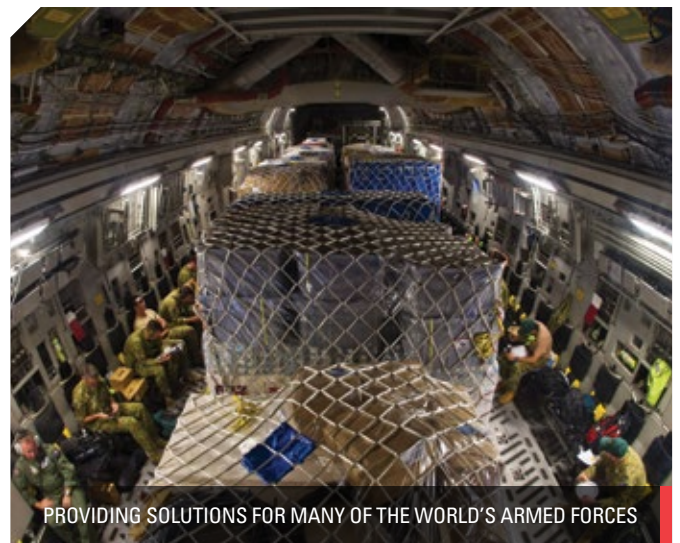

It is critical to restrain cargo within military aircraft because a moving load can put both the crew and the aircraft at risk. This is especially the case when aircraft are flying into areas of conflict or when there are adverse landing conditions. As the leading designer and manufacturer of cargo pallet nets and cargo pallet accessories, AmSafe Bridport recognises these challenges and provides solutions for many of the world's armed forces, charter aircraft companies, specialist users and aid agencies.

Braided Nets

The knotless intersection design of our nets, combined with a proprietary anti-abrasive process, reduces snagging and enables faster build-up times for loads. Single-piece braided nets allow you to manage a smaller inventory than if you used multiple-part nets, and they are available in several sizes. Many of these nets are compatible with the NATO standard 463L pallet system and a large number of aircraft floor fixings. In addition, you can tailor braid nets to individual needs by adding integral straps or fast load-build/breakdown QuickZip® loops.

Webbing Nets

Webbing nets offer an interoperable alternative to the single-piece braided net. This system comprises three nets per set: a top net and two side nets that are attached to secure the load by means of integral hooks and tensioner devices. This system can restrain various differing load shapes up to a maximum weight of 10,000lb (4,536kg).

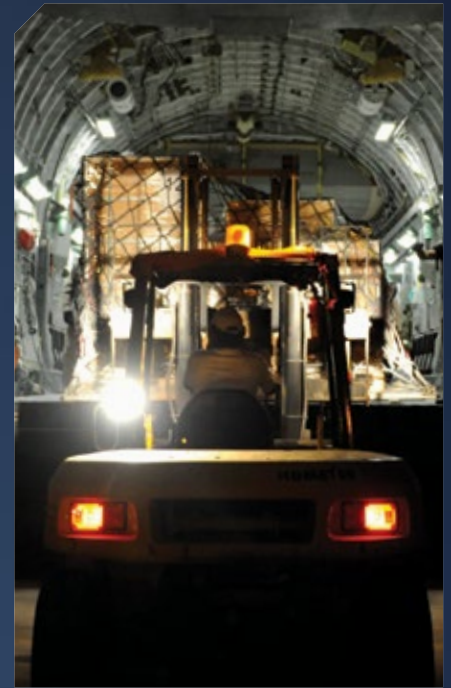

PROVIDING SOLUTIONS FOR MANY OF THE WORLD'S ARMED FORCES

Cargo Restraint Products

NATO Stock Number	Product Number	Description	Safe Working Load	
1670-00-969-4103	67E46290	Net, 463L Cargo Pallet, Top	4,536kg	10,000lb
1670-00-996-2780	67F46303	Net, 463L Cargo Pallet, Side	4,536kg	10,000lb
1670-99-138-9276	AC20-0113500	Net, 463L Cargo Pallet	4,536kg	10,000lb
1670-99-144-5229	AC20-0122700	Net, 463L Cargo Pallet	4,536kg	10,000lb
–	QZ30-0122740	Net, 463L Cargo Pallet	4,536kg	10,000lb
–	QZ30-0125001	Net, 463L Cargo Pallet	4,536kg	10,000lb
1670-00-992-1648	67E46475	Net, Cargo Pallet, Top	2,268kg	5,000lb
1670-00-978-3851	67F46476	Net, Cargo Pallet, Side	2,268kg	5,000lb
1670-99-764-6968	AC30-01166PO	Net, Cargo Throw-over	1,360kg	3,000lb
1670-99-729-8121	AC30-0189500	Net, Cargo Throw-over	500kg	1,102lb
1670-99-977-9802	AC60-0116400	Net, Cargo Throw-over	700kg	1,543lb

AmSafe Bridport's experienced engineers and technical authors can offer advice as well as customised user manuals and publications to support our range of products. AmSafe Bridport also offers full maintenance and repair training courses that enable users to keep their equipment serviceable and their cargo moving – whatever the conditions.

Key System Features

- Standard single piece Military Pallet Nets (3G/9G)
- Traditional 3-piece Pallet Nets
- Advanced Lightweight option saving up to 15kg/35lb per net
