

➤ MILITARY TIE-DOWNS

Securing Loads of All Sizes

AmSafe Bridport manufactures hundreds of thousands of tie-down systems that are used to secure cargo on board civil and military transport aircraft. We offer a large number of standard designs with safe working loads that range from as few as 1,000lb to as much as 10,000lb. Where higher working loads are required, AmSafe Bridport also offers chain and tensioner systems that can secure loads of up to 25,000lb.

Designed in accordance with strict industry and customer standards for land, sea, or air, each AmSafe Bridport tie-down solution can incorporate a range of features, such as:

- Ⓢ Anti-corrosive finishes that offer salt-spray resistance for up to 360hrs
- Ⓢ A variety of webbing colours to identify ownership or safe working load, with additional marking and labelling options
- Ⓢ Hook or stud fittings for standard applications or customised solutions for one-off or specialist uses
- Ⓢ Over-centre, ratchet, quick release, or friction buckles
- Ⓢ Anti-abrasive sleeves that offer additional protection to the textile element

SECURING CARGO ON BOARD CIVIL AND MILITARY AIRCRAFT

AmSafe Bridport's experienced engineers and technical authors can offer advice as well as customised user manuals and publications to support our range of cargo handling products. We work closely with a number of commercial and military forces, and trial and evaluation organisations, allowing us to understand the often demanding and difficult situations that exist for cargo restraint products. We apply this field knowledge to the design of products that meet specific military requirements.

Military Tie-Down Products

NATO Stock Number	Product Number	Description	Ultimate Working Load	
-	TS20-04443(xx)	ETSO/TSO C172 Strap, Aircraft Cargo Tie-down	907kg	2,000lb
-	TS40-02996(xx)	ETSO/TSO C172 Strap, Aircraft Cargo Tie-down	2,268kg	5,000lb
-	TS40-02646(xx)	Strap, Aircraft Cargo Tie-down	907kg	2,000lb
-	TS40-02595(xx)	Strap, Aircraft Cargo Tie-down	2,268kg	5,000lb
1670-00-725-1437	CGU-1/B	Strap, Aircraft Cargo Tie-down, 6.10m (20')	2,268kg	5,000lb
1670-00-212-1149	CGU-4/E	Tensioner, Aircraft Cargo Tie-down	4,536kg	10,000lb
1670-00-212-1150	CGU-3/E	Tensioner, Aircraft Cargo Tie-down	11,340kg	25,000lb
1670-00-516-8405	M6458-1	Chain, Aircraft Cargo Tie-down, 2.74m (9')	4,536kg	10,000lb
1670-00-778-4079	M6458-2	Chain, Aircraft Cargo Tie-down, 2.74m (9')	11,340kg	25,000lb
1670-99-102-8971	HA90-0259100	Coupling, Quick Release	2,268kg	5,000lb
1670-99-130-2398	HA90-0259000	Coupling, Quick Release	4,536kg	10,000lb
1670-99-102-5219	HA90-0258901	Chain, Aircraft Cargo Tie-down, 2.10m (7')	2,268kg	5,000lb
1670-99-102-5220	HA90-0258902	Chain, Aircraft Cargo Tie-down, 3.65m (12')	2,268kg	5,000lb
1670-99-102-6509	HA90-0258903	Chain, Aircraft Cargo Tie-down, 4.57m (15')	2,268kg	5,000lb
1670-99-102-6535	HA90-0256801	Chain, Aircraft Cargo Tie-down, 2.10m (7')	4,536kg	10,000lb
1670-99-102-6536	HA90-0256802	Chain, Aircraft Cargo Tie-down, 3.65m (12')	4,536kg	10,000lb
1670-99-102-6537	HA90-0256803	Chain, Aircraft Cargo Tie-down, 4.57m (15')	4,536kg	10,000lb
