

Product

Container Fire Containment Cover (C-FCC)

Application

ULD containers

Fire Containment Cover (Containers)

Product

Container Fire Containment Cover (C-FCC)

Application

ULD containers

Undeclared dangerous goods pose the biggest single risk of fire in the transport of air cargo.

The Container Fire Containment Cover provides a safety solution when cargo is transported in an unprotected ULD container.

Key features

- 01 Customizable for almost any ULD container configuration
- 02 Designed not to be airtight, essential for smoke detection systems
- 03 C-FCC system available for use within your current operations
- 04 No additional tooling or equipment required
- 05 Does not rely on detection or suppression systems
- 06 Easy container pull handle access
- 07 Features a document wallet for operational information
- 08 Access to the container using a roll up door
- 09 Three tier repair schemes with a network of global repair stations
- 10 Includes up to five year service life depending on application
