

24 March 2020

RE: AmSafe Bridport - Coronavirus mitigation

Dear Valued Customer,

Our thoughts go out to you at this unprecedented and most challenging time and I appreciate that everyone across the industry is attempting to do the right thing by their employees and business and we will continue to support you, wherever possible.

The health, safety and wellbeing of our employees is the utmost priority and as such we've sadly decided to temporarily close our UK facility from Monday the 30th March until Monday 21st April 2020, to help prevent the spread of Coronavirus (COVID-19) and protect the communities in which we live and work, in line with UK Government guidelines. We will provide a further update on a confirmed return to work date, during this three-week period.

Our Sri Lankan and Anaheim facilities will attempt to continue work, with a skeleton staff, and support your needs to the best of their ability. The situation is constantly evolving and we'll be monitoring and reviewing it closely to see what practical level of support we can provide from these facilities.

If you have orders with critical due dates, please advise us as a matter of urgency. We'll update you on the current status regarding those orders and try to mitigate any potential impact. As usual, providing AmSafe Bridport with your short and long-term forecasts will assist us in supporting your business, as best we can in this current period.

Please be assured that we will do everything we can to mitigate any potential impact as we navigate the weeks ahead together. The senior management and our sales teams, along with other key contacts you may interact with, inside our business, will continue to make themselves available during this period, and we will continue to keep you updated on events within AmSafe Bridport.

We would like to take this opportunity to wish yourself, your colleagues and families all the very best in these difficult times.

Yours faithfully,

Jason Abbott
President
