

Quality Policy

AmSafe Bridport is committed to provide safe and high quality design and manufacturing of products and repair services to our Customers.

Aim:

Key business commitment will be met by continuous improvement of our people; processes and systems.

In particular we commit to:

- The timely delivery of products and services that meet or exceed our Customers' requirements for product quality and performance
- Maintaining and improving on our current aerospace and other approvals
- Developing a culture that promotes open honest communication regarding any potential quality / safety subject.
- Continuous improvement of our processes and systems
- Provide suitable and sufficient training to all employees for required tasks

All staff have a vital role to play in this commitment and through continuous training to provide an effective contribution towards making this policy a successful reality.

The policy will be displayed on company noticeboards; intranet Portal and is available to all interested parties on request.
